

HOME ENERGY CONSULTATION

DTE Energy
Know Your Own Power™

NEED TO LOWER YOUR ENERGY BILL? We're here to help.

Find out where your home uses the most energy and identify things that you can do in every room to save energy. A DTE Energy Specialist will visit your home and conduct a FREE Home Energy Consultation.

PROGRAM OVERVIEW

An energy specialist will come to your home to provide a personalized Home Energy Profile that will show you where your home uses the most energy and identify things that you can do in every room to save energy.

We'll also install FREE energy-saving products that may include:

- ENERGY STAR® LED lightbulbs
- Energy efficient showerheads
- Kitchen and bathroom faucet aerators
- Hot water pipe wrap
- Nightlights

*Energy-saving products installed are dependent upon DTE Energy account type and eligibility.

AM I ELIGIBLE?

You can qualify for Home Energy Consultation if you are a current single family residential DTE customer in active status (excludes multiunit or apartment buildings) and your home has not already received a consultation. An adult 18 years or older must also be present to sign the customer authorization at the time of the home visit.

REFERRAL PROGRAM

For a limited time, when you refer others to the DTE Home Energy Consultation you'll be entered into a monthly drawing for gift cards up to **\$100**. After our energy specialists install your free products, they'll give you a unique referral code. Pass your referral code along to your friends, neighbors and family members. You'll be entered once for each installation completed based on your referrals.
